

HANGAR DOORS FOR CIVILIAN AND MILITARY AIRCRAFT

Fast opening and closing, and easy to maintain.

Available with Anti Terror Force Protection features.

**BATOR HANGAR DOORS –
THE TAILOR-MADE SOLUTION
FOR CIVILIAN AND MILITARY
AIRCRAFT.**

REQUIREMENTS

Bator hangar doors for civilian and military airfields meet a wide range of requirements:

- > Maximum opening width thanks to optimised folding technology
- > Separately sliding door sections (part opening is possible)
- > Built in emergency power supply for continuous availability
- > Good thermal insulation for a constant indoor temperature (high R value)

DESIGN AND FITTINGS

On all BATOR door systems – whether they are folding, telescopic or sliding doors – the door is perfectly matched to the façade down to the last detail. Attention is paid to color, fire escape doors, motor and control system functionality as well as the best possible acoustic and thermal insulation.

**EXCELLENT PROTECTION
AGAINST CORROSION**

For extreme conditions where rust has to be avoided, or protection from corrosive gases is required, BATOR offers hangar doors made in premium grade steel, fully hot-dip galvanised and then powder-coated.

MOTOR AND CONTROLS

The doors are controlled using the latest PLC technology. Our priorities are maximum reliability, ease of use and safety.
